Miracles in the Rainforest

Deep in the rainforest of Gabon, Africa, **Bongolo Hospital** serves over 40,000 patients a year. Each of those patients hears the good news of Christ. Thousands have accepted that call!

Mission

To see God glorified as people are healed, saved, equipped, and sent. We work with Christ to reach the lost in Gabon, by providing compassionate, professional medical care to all in need, and equipping Christian medical professionals to extend this vision to all of Africa.

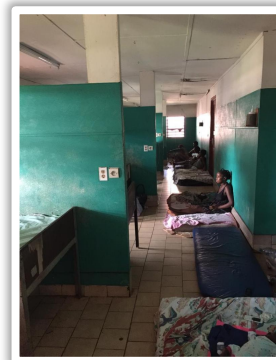

We provide holistic ministries throughout the hospital campus. We empower medical professionals through our training programs. We develop strategies to engage the local community in innovative ways.

At Bongolo, we offer quality health care to a population who desperately needs it. To continue the good work the Lord is doing in the rainforest, we need your [support](#) through prayer, finances, and service.

For up-to-date stories and information, please see Bongolo Hospital's [website](#) or Facebook [page](#).
